

California Lutheran University is looking for 2012 graduates and I am asking for your help in identifying student-athletes that might be interested in a private small college atmosphere. Please visit our Undergraduate Admission site at <http://www.callutheran.edu/admission/undergraduate/>.

Undergraduate admission requirements: must have a minimum grade point average of 3.4 and an 1150 SAT score; the above mentioned web-site will explain the admission process in more detail.

CLU has over 37 academic majors some of which are unique to a small college and some majors such as bioengineering and others take advantage of assets and businesses close to the Thousand Oaks area: http://www.callutheran.edu/admission/undergraduate/academics/academic_programs.php .

CLU is an NCAA Division III institution. Students with good quality academics will receive generous financial aid packages. All of our financial aid is based on academics and financial need.

Please take a look at the CLU tuition and cost match with the University of California System, it is a GREAT deal. Students have the opportunity to receive a private education at a public price. Out of state students only pay the in state California tuition rate. Please visit this link for details: http://www.callutheran.edu/financial_aid/grants_scholarships/undergraduate/clu_guarantee.php
